PROFESSIONAL SUMMARY

Senior Mobile Developer with 10+ years of experience designing and shipping iPhone/iPad applications in Swift, SwiftUI and Objective-C, and building cross-platform iOS/Android apps with React Native. Strong in app and network security (VPN, Network Extension, post-quantum encryption), Google Maps and real-time location apps, REST/Firebase integration and payment gateways. Owns projects end to end, from requirements through App Store / Play Store delivery and ongoing support. Open to remote part-time, contract and freelance work.

CORE SKILLS

Languages & UI: Swift, SwiftUI, UIKit, Objective-C, Cocoa Touch, Kotlin, Java, C/C++; custom UI & animation
Cross-Platform: React Native, JavaScript, TypeScript, React Hooks, Redux, React Navigation, native module bridging (Swift/Objective-C), Expo
Security & VPN: Network Extension, packet tunnel providers, TLS/ATS, certificate pinning, kill switch, Keychain, CryptoKit, Secure Enclave, Face ID/Touch ID, OAuth 2.0/JWT, post-quantum encryption
Maps & Location: Google Maps SDK, live location tracking, driver/customer workflow apps
API & Backend: RESTful APIs, JSON/XML, Firebase, push notifications (FCM), SOAP
Payments: Stripe, PayPal, Razorpay, Braintree, Square
Tools & Process: Xcode, Git (GitLab, Bitbucket), CI/CD, MVVM, Core Data, SQLite, App Store & Play Store release, Agile/Scrum, Figma/XD

PROFESSIONAL EXPERIENCE

Sr. iOS Mobile Developer – Quantum Secure Products | QClair Quantum Labs Pvt. Ltd.

2024 – Present

- Building secure iOS products including **QubitGuard VPN** – post-quantum encryption, no-logs design, automatic kill switch and one-tap connect (Swift, Network Extension).
- Work on VPN/ZTNA-style access, device posture checks and per-app VPN features.

iOS Mobile Lead | Mind Info Services

2022 – 2024

- Led native iOS development, code reviews and App Store releases for client applications.
- Coordinated with backend and Android teams on API integration and delivery timelines.

Sr. iOS Associate | Cyber Infrastructure

2012 – 2022

- **Xchange Mall – Super App:** multi-service consumer app; led native iOS and custom UI; REST APIs, Firebase, Google Maps.
- **CARRUBA – User & Driver Apps:** on-demand transport platform with live location tracking, maps and Firebase.
- **Mauritius Explored:** travel guide app with REST APIs, Firebase and Google Maps-based UI.
- **Ballu Flutes:** shopping app built in Swift/SwiftUI with Firebase and backend APIs.
- **CANCOM Visitor & Fleet Access Suite:** visitor gate codes, remote gate control, car-park vehicle scanning, keyless car rental.
- Earlier: Nofeela & Lunlaa (sole developer, App Store release); ROS & My Ticket (PhoneGap/Cordova).

EDUCATION

Master of Computer Applications (MCA) – Medi-Caps Institute of Management & Science, Indore (RGPV, Bhopal) · 2010
Bachelor of Computer Science – Holkar Science College, Indore · 2006
